ABOUT

About Us

Talisker is a Western Australian owned and operated mobile crushing and screening contractor, working across WA and the Northern Territory. We deliver end-to-end crushing and screening — wet or dry plant hire, specialist labour hire, blast-hole stemming, and aggregate and sand supply. We're big enough to deliver your scope, yet small enough to stay flexible to suit it. With a highly experienced team across every stage of crushing and screening, from mobile to fixed, and a modern, work-ready fleet, you can be confident of the best result — delivered safely and efficiently.

"We find solutions, to achieve your outcomes safely and efficiently."

WA + NT

WHERE WE WORK

**GOLD • IRON ORE •
LITHIUM**

COMMODITIES CRUSHED

2 & 3 STAGE

MOBILE CIRCUITS

500+ TPH

PLANT CAPACITY

WHAT WE DO

Services

01

Complete Contract Crushing & Screening

Two- and three-stage mobile circuits delivering primary, secondary and tertiary crushing. Scopes spanning ore, high-grade DSO lump and fines, scats, roadbase and subbase, construction aggregates, rail ballast and armour rock.

02

Wet & Dry Plant Hire

Crushers, screens, reclaimers, stackers and loaders for short- or long-term hire. Our experienced tradesmen and crusher operators can run and maintain your plant, or ours.

03

Aggregate & Sand Supply

We source and supply aggregates and sand products across WA from our network of sites, and arrange transport to suit your requirements.

04

Blast-Hole Stemming Production

Dedicated stemming campaigns producing screened stemming and crusher dust to keep your drill-and-blast programme supplied.

Mobile to fixed — right across WA & the NT.

Fleet & Equipment

A modern, work-ready fleet for wet or dry hire and full contract scopes — mobilised across WA and the NT.

Terex Finlay, Striker
- **Reclaimer screens**
- **Radial stackers & conveyors**
Telestack
- **Wheel loaders**
Cat & Hitachi — to 988 class
- **Excavators**
45 t and above
- **Support equipment**
Service & site support fleet

Two- and three-stage mobile circuits configured to your scope, with plant capacity to 500+ tph.

Current Projects

Nobles Gold Mine — TCMG

GOLD • TENNANT CREEK, NT

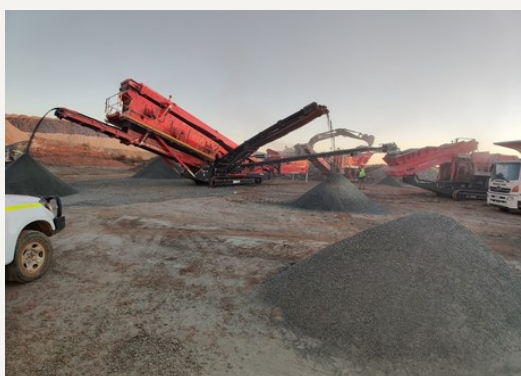

70–80 kt 3-stage ~170 tph

PER MONTH

CIRCUIT

FRESH FEED

Primary, secondary and tertiary crushing and screening of gold ore on a long-running contract for Tennant Creek Mining Group, supplying mill feed at 70–80 kt per month.

Pilbara Resource Group — C4

IRON ORE • WILUNA WEST, WA

120 kt 12 months Lump + Fines

PER MONTH

CAMPAIGN

HIGH-GRADE DSO

Crushing and screening high-grade lump and fines DSO at 120,000 t per month across a 12-month campaign, supporting PRG's shipment targets.

JWD — CuFe & PRG

IRON ORE • WILUNA WEST, WA

80 kt 9 months Lump + Fines

PER MONTH

CAMPAIGN

PRODUCTION

Lump and fines iron-ore production at the JWD operation — delivered for CuFe and retained through PRG's takeover of the mine, at around 80,000 t per month.

Recent Project Experience

Mt Holland

LITHIUM PROJECT • WA

180 kt subbase / roadbase

100 kt stemming

Site construction crushing for the Mt Holland lithium project — subbase and roadbase production plus a blast-stemming supply.

Talison — Greenbushes

LITHIUM • GREENBUSHES, WA

600 kt select fill

120 kt road & base

18 months

Bulk earthworks crushing at the Talison Greenbushes lithium operation — 600 kt of select fill, 90 kt basecourse and 30 kt roadbase across an 18-month program.

Genesis

GOLD • LEONORA, WA

60 kt mill feed

22 kt U/G roadbase

Mill-feed crushing and underground roadbase for Genesis at its Leonora operations.

Ora Banda

GOLD • WA

30 kt / month

6 months

20 kt stemming

Mobile crushing of sticky, clay-rich mill feed that was choking the fixed plant — plus a dedicated stemming campaign.

Nufortune — Bullfinch

AGGREGATES • WA

120 kt +

Crushed roadbase and construction aggregates totalling more than 120,000 t at Bullfinch.

SMS — Blue Hills

IRON ORE • MID WEST, WA

3,000,000 t

14 months

500+ tph

Lump and fines iron ore as part of a 3 Mt scope over 14 months, with plant capacity over 500 tph.

WHO WE WORK FOR

Clients & Commodities

Talisker has delivered crushing, screening, stemming and supply for gold, iron-ore and lithium operations across Western Australia and the Northern Territory.
